

Would you like these in your mouth?

## BIT DONATION SCHEME

We need your snaffle bits (old or new) to take to **India** and stop the suffering caused by using these homemade bits.

4½ , 4¾ , 5 & 5¼ inch only

Can you **DO YOUR BIT** and donate today?

Friends of Marwari / Kathiawari Horse UK is the UK chapter of the Indigenous Horse Society of India. We work to promote these unique breeds of horse (they are the ones with curly touching ears, found only in India).

Unfortunately due to lack of education the sharp, crude and roughly filed homemade bits pictured above are an all too common site in the horse fairs. These breeds of horses are considered divine ~ by donating an old snaffle bit you could ensure that some horses at least will be relieved of these cruel contraptions. (snaffles of all types, pelhams, kimblewicks, etc all welcome)

All the bits you donate are given personally to known and respected horse traders, breeders and farmers, who understand the importance of good horsemanship, and in time it is hoped that they can in turn educate their buyers and fellow horse owners into an alternative, kinder, way of biting their horses.

Our next shipment is in March 2010 to the Balotra (Mallinath) Fair in Rajasthan, please donate by placing your old bit/s in the bag

↓ or container below. ↓

### OUR MISSION STATEMENT:

*"A non profit making organisation working towards international recognition of, and dedicated to the improvement and preservation of, the Marwari and Kathiawari horses of India"*

Look us up and learn more about these breeds at:
